New England dining

Beautiful in form as well as function, the New England collection is a classically designed range of dining furniture with a relaxed contemporary edge that will complement a host of decorative styles.

Ideal for those who love laid back family gatherings or smart dinner parties.

The range has a beautiful handcrafted simplicity, classic in proportions and detail yet with a contemporary finish. The traditionally crafted mitred frames to the doors and drawers complement the simple flowing space of the underframes beautifully. This is offset by the attractive natural grain on the oak top panels. The collection is available in Oak with accent chrome plated handles, or as painted Oak in soft pastel colours with oak top panels, making New England an attractive and versatile choice for all homes.
